Enrolment

Policy statement

1. The Catholic Church in the Diocese of Parramatta provides Catholic education as a significant work of the Church. Students are enrolled to receive a Catholic education.

2. Catholic Education Diocese of Parramatta (CEDP) schools recognise that parents, as first educators of their children, need to "choose the school best suited to [their] educational purpose".ii

3. CEDP schools welcome a diverse range of students who seek enrolment in our schools.

4. CEDP schools balance the following needs when prioritising enrolments:
   - preferencing Catholic children from local parishes and siblings of current students
   - supporting those who are poor, marginalised and in most need
   - accepting enrolments of children from non-Catholic families where places are available.iii

5. No student is declined enrolment because of a parent’s genuine inability to pay school fees.

Context

CEDP schools exist to provide quality Catholic schooling. They are places of "integral formation" "through a living encounter with a cultural inheritance" founded on the teachings of Christ.iv

Scope and application

This Policy applies to enrolment in all CEDP schools.
